

Report on the results of the questionnaire
“Satisfaction of doctoral students with educational services”
for the 2022-2023 academic year
in the educational program
7M07106 “Heat power engineering”

In February 2023, the Center for Quality Management and Accreditation conducted an anonymous electronic questionnaire **“Satisfaction master's students with educational services”**.

The purpose of the study – measuring consumer satisfaction with the quality of university services provided.

The subject of the study: formed ideas of master's students about the organization of the educational process, the degree of satisfaction with its various characteristics.

The results of the questionnaire were processed and presented in a summarized form with a guarantee of confidentiality of the personal opinions of master's students.

An object research - master students of 1-2 years.

*This extensive questionnaire is conducted once every 5 years.

4 respondents took part in the questionnaire, which amounted to 80% of the total number of master's students.

During the questionnaire process, the following data was obtained:

Please write what questions in your opinion need to be added to this questionnaire to improve the training program, improve the quality of services provided and other areas of the university's activities.

1st year (%)	2nd year (%)
- I don't know; - all the questions are there.	- no

Based on the results of the survey, the following **conclusions** can be drawn:

To the question **“What determined your choice of studying at a university master’s program? (choose 3-4 answer options)”** the majority of master's students 100% indicated “Leading scientists in the teaching staff” and “The university where I studied at the bachelor's degree”. Also, master's students noted such options as: “Prestige of the university” and “The university in the locality where the family lives (close to it)” by 50% each.

To the question **“How satisfied are you with the availability of information provided by the university in your field of study”** the following information was received:

- “About the training profile” Master's students' satisfaction was 100%;
- “Characteristics of a master’s student’s professional activity” master's students’ satisfaction was 100%;
- “List of developed competencies of master's degree graduates” master's students' satisfaction was 100%;
- “List of master's students' practice databases” master's students' satisfaction was 100%;
- “Information about scientific supervisors” master's students' satisfaction was 100%.

The teaching staff is rated quite highly by the respondents For all criteria presented in the questionnaire (knowledge, qualifications, objectivity, methodological skill), more than 100% of respondents gave “very high” and “high” marks.

In general, master's students are satisfied with participation in the formation of an individual work plan. According to the obtained data, 100% of first-year respondents and 50% of second-year respondents develop all sections of the plan independently under the supervision of their supervisor. However, there are also 50% of second-year master's students who note that they form an individual plan independently.

To the question: **“Rate your satisfaction with the help of your supervisor in preparing your master’s thesis”** satisfaction of master's students amounted to 100%.

When answering the question **“What, in your opinion, is an indicator of a high scientific level of a university? (select 3-4 key characteristics)”** 100% of respondents chose the option “strong teaching staff”, the same percentages of 75% were distributed between the options “modern material and technical base” and “involvement of undergraduates in research projects”

Publication of scientific articles, theses is one of the main conditions for successful start of scientific work for Master students. Published articles and theses, their quantity and quality determine the master's ability to work independently with large amounts of information, to organize scientific activity, to apply methods in the work, to obtain results, to form correct conclusions, to comply with the requirements for the general design and content of scientific papers. Master students publish their articles and theses both in Kazakhstan editions and distant/close foreign editions (2nd year - 50%). There are also master students who publish only in Kazakhstani editions (1st year - 50%, 2nd year - 50%) However, 50% of first year respondents indicated that they have no scientific publications.

On the question **“Your level of foreign language proficiency:”** the answers of respondents were distributed as follows: “conversational level” - 50%, “average level” and “with a dictionary” - 25%.

Assessment of the level of participation of master's students in the work of the department at a high level - 87.5%. At the same time, the highest percentage of respondents who assessed the level of their participation as “high” in writing scientific articles and participation with reports at conferences and seminars (100%).

To the question **“Are you satisfied with the scientific and educational environment of the university during your master’s studies”?** the following information was received:

- “Organization of conferences, round tables, forums at the university, with the participation of master students” master's students' satisfaction was 100%;

- “Material and technical support for applied scientific research” master's students' satisfaction was 100%;

- “Availability for master students of technology, computers necessary for the educational process and scientific activities” master's students' satisfaction was 100%;

- “General level of organization and conduct of foreign internships” master's students' satisfaction was 100%;

- “Accessibility of library collections, electronic databases and Internet resources” master's students' satisfaction was 100%;

- “Availability of scientific equipment, tools, materials” master's students' satisfaction was 100%;

- “Availability of laboratories, specialized facilities and experimental sites” master's students' satisfaction was 100%;

In general, the respondents haven’t difficulties when studying at the master's program. At the end of the questionnaire it was proposed to include questions that, in the opinion of students, should be added to this questionnaire to improve the training program, improve the quality of services and other areas of the university. However, the respondents limited themselves with such answers: “I don’t know”, “all the questions are there” and “no”.

Recommendations::

- The head of the department, SID, PO will familiarize themselves with the results of the questionnaire and, if necessary, develop an action plan to improve the quality of services provided.
