- Do you agree with your scholarship?
- All the necessary questions are here
- Are you satisfied with your student life?.

According to the results of the questionnaire, the following **conclusions** can be drawn:

The choice of specialty is a very important aspect in the life of young people. Some do it consciously, others unconsciously, by the coincidence of external circumstances.

The study has shown that the main factor in choosing a specialty for 38.5% of surveyed students is the opinion and recommendations of parents, relatives and the prestige of the specialty. Other relatively significant criteria were: "personal inclination to a certain type of activity, assessment of own abilities" - 15.3% and "labor market requirements (employment opportunities)" - 7.7%.

The source of obtaining information about the university, faculties and specialties among the majority of first-year students are relatives, acquaintances (69.2%).

The majority of students report their satisfaction with the choice of educational program on which they study - 100%.

To the question "Do you easily cope with the study load?" only 61.5% of students answered that it is easy. The rest 30.8% answered "it is difficult during the session" and 7.7% found it difficult to answer.

Relationships "between students", "between teachers and students (in the educational process)", "between student and supervisor", "between students and administration", "between students and employees of departments (library, student department, etc.)", "between students and security service" are assessed by respondents, mainly as "benevolent" and "rather benevolent than not benevolent".

76.9% of students noted that they always have access to the necessary information regarding the educational process and extracurricular activities. However, 23.1% of respondents chose the answer "no, not always".

The following information was received in response to the question "How would you rate the quality of the classes?":

- "The material is presented clearly, accessible, in a logical sequence" satisfaction of students amounted to 100%;

- "During the lessons the main thing is emphasized, reasonable conclusions are made" satisfaction of students amounted to 92,3%;

- "During the lessons a friendly atmosphere is maintained in relation to the students" satisfaction of students amounted to 100%;

- "During the lessons, the pace of presentation of the material is easy to understand and write down" learner satisfaction was 92,3%;

- "The tasks for independent work of students are clearly formulated, support is provided for its implementation" satisfaction of students amounted to 92,3%;

- "Assessment of learning outcomes in the discipline is transparent and objective" satisfaction of students amounted to 92,3%.

At the end of the questionnaire, students are asked to make questions that in their opinion should be added to this questionnaire to improve the training program, improve the quality of services provided and other areas of the university. Students proposed the following questions: "Do you agree with your scholarship?", "Are you satisfied with your student life?", etc.

### **Recommendations:**

Head of the department to familiarize the staff and students with the results of the questionnaire, if necessary, to develop an action plan to improve the quality of educational services.
