

Conducting master classes and open classes is based on practical actions to demonstrate a creative solution to a cognitive and problematic pedagogical problem. To this end, 4 master classes and 6 open classes according to the Standard Curriculum were held at the Department of R&K in accordance with the plan.

1. Master classes:

2. 1. Shayakhmetova N.K., Associate Professor, Ph.D. "Functional styles of the Russian language. Stylistically colored language aids. The concept of language norm. "

3. 2. Nurpeisova S.K., Associate Professor, Ph.D. "Geographical location of the city. Types of complex sentence. "

4. K.K. Utemuratova, "History of my specialty."

5. T.S. Kulpeisova, "Culture of Professional Speech."

Open classes:

1. Dokuchaeva N.V., "Cultural recreation: theaters, museums, festivals, exhibitions, concerts, literature, music, the role of art in human life. Simple sentence. Complicated offer with partial turnover. "

2. S.M. Tazhibaeva, "The city where I study. Prepositional system. "

3. D.B. Tleumbetova, "A perfect city. Definitive pronouns. Degrees of comparison of adjectives. "

4. Tusupbekov A.S., "My home. Housing issue. "

5. Zh.A. Azimbaeva, "Prospects for humanitarian, technical, medical and other types of education. "

6. Timokhina T.V., "Famous scientist in the field of studied science."

The organization of master classes and open practical classes was based on the use of modern pedagogical technologies:

- technology of competence training (NK Shayakhmetova),
- critical thinking technology (S.K. Nurpeisova),
- technology of problem-search method (N. Dokuchaeva),
- technology of problem-dialogue training (S.M. Tazhibaeva),
- heuristic learning method technology (D.B. Tleumbetova),
- problem research technology (A.S. Tusupbekov)
- innovative teaching methods (B.K. Utemuratova),
- multimedia presentation creation technology (T.S. Kulpeisova)
- innovative methods (Azimbayeva Zh.A.)
- professional-oriented educational technology (Timokhina T.V.)

The classes were held at the proper professional level, the teachers demonstrated a high level of application of modern technologies for teaching the Russian language in the national audience.
